

Transform the simplicity, performance, and agility of your hybrid cloud data protection

HPE StoreOnce

Reduce cost, risk, and complexity with a built-for-cloud data protection platform. HPE StoreOnce provides flash speed data center protection and low-cost archive and disaster recovery in the cloud that can scale from small remote offices to the largest enterprises and service providers.

Simplify operations

Take the time and stress out of data protection

Deliver on SLAs

Protect more data, faster for less

Protect your data your way

Fits into your environment seamlessly

Don't take our word for it. See what satisfied customers have to say.¹

Simplify operations

Built for the cloud, less operator time, self-service

“StoreOnce helps us to protect more data in a very efficient way with better performance. **With cloud integration capabilities**, it also helps us to achieve an **excellent disaster recovery strategy** and to **reduce critical business risks**.”

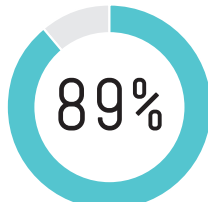

– Anton Kavcic, IT Director, Iskratel

“StoreOnce is a wonderful backup solution, we can store 10 years of the organization's data **without headaches**. It's a **worry-free**, high-performance solution.”

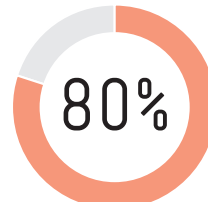

– Abdul Majeed, Storage Administrator, Gulf Consolidated Contractors

“**Bank of India** saw a **reduction in cloud storage costs** for backup (due to deduplication) by **> 75%** after using HPE StoreOnce.”

– Storage Administrator, Bank of India

of surveyed customers rate HPE StoreOnce's multi-system management from a single pane of glass as a valuable capability.²

of surveyed customers rate HPE StoreOnce's self-service data protection enabling DBAs and app owners to back up their apps directly to StoreOnce—using native user interfaces as a valuable capability.³

Deliver on SLAs

Take control of data growth, break the backup window, mitigate risk

“HPE StoreOnce has helped our company **reduce its backup window**, provide **faster recovery of data**, and **make the most of our storage** with inline dedupe.”

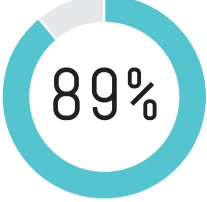

– IT Manager, Medium Enterprise Financial Services Company

“StoreOnce gives us **confidence that our data is safely protected** and **readily available** should it be required.”

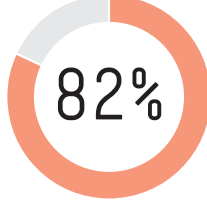

– Bryce Farnilo, Chief Technology Officer (CTO), LayerX Cloud Limited

“HPE StoreOnce allowed us to deploy an Enterprise level backup system to our small business and increased our ability to **recover from any catastrophic event** from a ‘well maybe we can’ to **‘I know we can’**.”

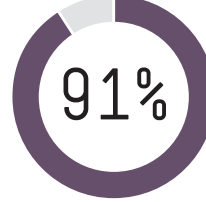

– Brian Cady, IT Manager, Omni Surgery Center

of surveyed customers saw a reduction in backup storage capacity required (due to deduplication) by **26–50% or more** after using HPE StoreOnce.⁴

of surveyed customers saw a reduction in backup time by **26–50% or more after using HPE StoreOnce**.⁵

of surveyed customers rate HPE StoreOnce's encrypted backups, data integrity checks, fast restores, and high availability storage as a valuable capability.⁶

Protect your data your way

Agile software-defined protection, flexible consumption, app integrated

“The **seamless integration** between our backup tools, our existing storage infrastructure, and our StoreOnce platforms allows us to **meet critical RPO/RTO requirements** and also leverage the platform to **move business data fast**.”

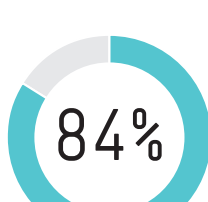

– Ryan Burgess, Manager, Technology Infrastructure, BlueShore Financial

“**StoreOnce is simple to use**, with **great integrations to Veeam, NBU, and our 3PARs**. And, the performance is great.”

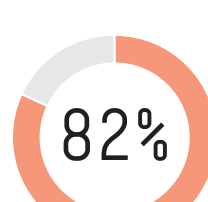

– Senior IT Architect, Medium Enterprise Computer Services Company

“As the main backup system in our company. **It's fully integrated with Veeam** and the **results are so successful** that it's now **defined as a standard infrastructure** for all our Latam satellite offices.”

– Cesar Perez, IT Manager, Grunenthal Chile

of surveyed customers rate HPE StoreOnce's agile software defined protection with easy to deploy, scalable, flexible StoreOnce VSA as a valuable capability.⁷

of surveyed customers rate HPE StoreOnce's **best of breed backup ISV integration ecosystem** as a valuable capability.⁸

It's your turn

Discover how HPE StoreOnce can transform your hybrid cloud data protection with greater simplicity, performance, and agility at lower cost than traditional solutions.
