## AI IN CORPORATE FINANCE & ACCOUNTING

**80%**

TIME CORPORATE FINANCE TEAMS SPEND MANUALLY GATHERING AND VERIFYING FINANCIAL DATA

BOOKKEEPERS THAT THINK THEIR JOBS WILL BE AUTOMATED

**97.6%**

**73%**

EXECUTIVES THAT SEE AI IMPROVING THEIR COMPANY'S FINANCIAL EFFICIENCY

### AUTOMATE DATA ENTRY AND DATA CATEGORIZATION

AI helps accountants more quickly categorize financial and accounting data.

### IDENTIFIES ANOMALIES IN FINANCIAL DATA

AI systems identify patterns in financial data and spot anomalies to further investigate.

### SPOT TRENDS

AI systems analyze and digest large volumes of data fast to spot trends.

### AUTOMATICALLY AUTHORIZE AND PROCESS DOCUMENTS

AI systems can automatically process invoices, POs, and reimbursements and route to correct departments.

### FRAUD DETECTION

AI systems recognize potential fraud through supervised training to detect fraudulent activity.

### AI-CHATBOTS

AI chatbots answer customer questions including account balances, status on accounts and more.

### AUTOMATE COMPLIANCE AND AUDITING

AI systems automatically review and approve/deny expenses ensuring compliance to company policies

### ACCOUNTS PAYABLE/RECEIVABLE PROCESSING

AI-powered invoice management systems make invoice processing streamlined.
